

Necklet Collection

69106
3/4" Crucifix

Sterling Silver is a natural metal which may over time tarnish. Our pendants and chains have been treated with rhodium to prevent tarnishing. It is important to occasionally polish the pendant and chain with a soft cloth to maintain appearance.

Our Sterling Silver is hallmark "925" this represents certified Sterling Silver and signifies the high quality of the product. 925 means that 92.5% of the item is genuine silver and the other 7.5% will be an alloy to help prevent tarnishing. The alloy gives it strength and makes it more resistant to scratching.
